Revision & Prep	17	Complete Final Exam Request Form. Revise and complete Practice Exam	Practice Exam	10
Revision & Final Exam	18	Revision & Biology Final Exam (3 hour 10 min exam)	Final Exam	10

*This is an 18 week example of how to complete the course. As previously mentioned the content is self-paced study and the student has 365 days to complete the course, so this schedule may be adapted by individual students to suit their needs. 18 weeks is advised as the minimum time to complete the course – as shown by the schedule it is very intensive.
